Attendees of the 2023 Comanche Nation Fair will see some changes this year.

The famous row of tipis that symbolize the Comanche Nation Fair will be put up the end of September to commemorate the Comanche Nation Fair celebration, which will take place Sept. 29-Oct. 1.

By Natascha Mercadante/NewsStaff

As summer comes to an end, Comanche tribal members near and far are preparing for the annual Comanche Nation Fair where tribal members gather to celebrate their culture. The Comanche Nation Fair will run from Friday, Sept. 29, through Sunday, Oct. 1, with some events starting the week prior.

A new Fair Board was elected the end of 2022, and they are making some changes to help make the fair more accommodating for every-

President of Comanche Nation Fair Board, June Kester said the land run will have an online registration this year.

"Registration will be strictly enforced," she said. "So, if they come on the day of to set up, they will just be stopped, and then we can register them on-site. If somebody happens to try to set up camp where there's somebody else registered, we'll just move them and help them register for their own site."

She said they're still work-

ing on getting registration ready.

"We're currently working extremely hard with law enforcement and with the IT department on our camper registration," Kester said. "That is set to go live on September 1, and we also have an event set up with the Elder's Council so that we, as the fair board, can help be there to assist our elders when it is time for them to register for campsites."

She said they measured sites to ensure room for a car, tent and anything else campers might need.

"They'll be numbered, and they'll be rows, and they'll be more organized," Kester said. "So, when you go on the website and you pick your site, you'll be able to, when get on site, you'll be able to see your number, you'll see your location."

Annual events are still active this year; however, there won't be a rodeo, a softball tournament or a music festival.

"Most of the annual events; the golf tournament, the carnival, of course, will be up and running, and our powwow, which is the center of

the fair, will be up and running for the three days, and we'll have children's activities," she said.

There will be a horseshoe tournament and cornhole, a parade and hot dogs after the parade.

Kester said they have everything in the works and are wrapping up event fliers and a schedule of events.

"We're hoping that this will open it up for more employees to be able to go and, of course, more visitors over the weekend. And we're going to have the buffalo harvest as well. This will be the second year that we'll be doing the buffalo harvest," she said.

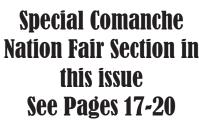

Kester said the fair board is there to help transition to the upcoming changes.

"We want to be moving forward and always doing better as the fair board continues to grow," she said. "I mean, last year, I think, was our biggest year ever, and so that's part of what this whole thing is, it is just working together and coming up with ideas. We've outgrown our space, and we've also got a lot of structures coming up on the limited space that we already have. And so, we understand that it's a big change, but we're hoping this will be a good change, and we'll make sure that it's fair and there's room for everybody who wants to come and camp."

Comanche Nation Housing Authority Awarded \$491,283 Grant to Help Rehabilitate Out of **Area Elders Homes**

The BIA ARPA funding will enhance Comanche Nation Housing Authority's Elder-focused welfare initiative

LAWTON, Okla., (Aug. 14, 2023) - Comanche Nation Housing Authority (CNHA), a Comanche Nation-affiliated organization that promotes self-sufficiency and provides affordable, safe and decent housing to low-income tribal members, recently announced it was awarded the Bureau of Indian Affairs American Rescue Plan Act (BIA ARPA) grant of \$491,238. The federal grant will directly support CNHA's ongoing efforts to rehabilitate Elders' living conditions.

The one-time grant aims to address the long-lasting public health and economic challenges caused by the COVID-19 pandemic by providing essential housing repairs and improvements to tribal Elders, helping them maintain a safe and healthy living environment.

"Over the past year, we have prioritized our efforts to better serve our Elders as they are an essential part of our culture and community," said Nora Sovo, Deputy Director of CNHA. "The funding will allow us to reach Elders that have been considered out of reach since they do not reside in our service areas. It is crucial to maintain the upkeep of as many Elder tribal members' homes as possible, ensuring they have safe and healthy living spaces."

The funding will serve as an expansion of Comanche Nation Housing Authority's existing Elder Rehabilitation Program, which is a social welfare initiative aimed at improving the housing needs, living conditions and general well-being of Comanche Nation Elders. The BIA ARPA is specifically designed to extend the ongoing housing improvement services to Elders residing outside of the current service area.

The grant will provide up to \$8,000 in assistance for services like remedying water, sewage, and major electrical issues, renovations to meet handicap accessibility and lifestyle improvements, appliance replacement to enhance habitability of the home limited to generators, range, cooktops, hoods/vents, ovens, refrigerators, washers and dryers.

Eligibility for this award is determined upon tribal enrollment status and age (62 or older), being the homeowner residing in the home and being located outside of the Comanche Nation's seven-county service areas. Online applications will be accepted beginning Sept. 11 and will continue until funds are expended. To apply for this one-time grant, please visit www.comanchehousing.com.

WE ARE COMANCHE WARRIORS

Being a Comanche Warrior encompasses embodying the values of bravery, honor, and loyalty while protecting our people and our Comanche way of life. A Comanche Warrior's identity is deeply tied to our roots passed down to us from generation to generation and the traditions, values, and skills of the Comanche People. It involves being a protector of our Comanche Nation and upholding the cultural, language, and spiritual

A COMANCHE WARRIOR FIGHTS FOR SOMETHING BIGGER THAN SELF

It's not about being the toughest person, it's not about seeking glory, and it doesn't require a uniform. A warrior is fully engaged in developing their talent and ability over a lifetime to become an asset to the "tribe" they serve. Today, that Tribe is our family, our community, our elders, our parents and future generations to come. Being a warrior is serving something greater than ourselves.

A COMANCHE WARRIOR NURTURES THEIR WARRIOR SPIRIT In our Comanche communities, the warriors role is a spiritual endeavor as much as anything else. Between our powwow's, ceremonies, prayers, sacrifices, and use of holy medicines, spirit is interwoven throughout all of our actions and intentions. When our spirit is involved in the activity, the activity itself becomes a spiritual event. When we incorporate our spiritual beliefs and practices into our efforts, they can pull us through pain and fear, and help us get out of our own way to accomplish what we set out to do.

A WARRIOR ISN'T JUST A MAN'S JOB

Our Comanche women are the birthplace and backbone of our Comanche Nation. They've always had a strong presence, serving and leading our people. Our Comanche women are full fledge warriors in every sense of the word as they protect our children, they keep our families intact, and they fight to preserve our culture. They've been honorably fulfilling this role for almost 150 years and undoubtedly will continue to do so not only in our Comanche Nation, but also in government, in the military, education, science, social services, healthcare, and in leadership roles across our Comanche Nation.

By honoring our cultural heritage, preserving traditions, and advocating for the rights and well-being of our Comanche People, as well as standing up against injustices, we are promoting cultural awareness and working to address the unique challenges we face everyday and preserving our beautiful culture. We are and always will be Comanche Warriors.

Together our Comanche Nation is well defended....WE ARE COMAN-CHE WARRIORS and WE ARE COMANCHE STRONG! LIVE LIKE A WARRIOR, DIE LIKE A LEGEND

Prevention & Recovery's COIPP Program Skates into Wellness at Their 2nd Annual Skate Jam

Submitted by Brittany Turner/Comanche Nation Prevention & Recovery

The Comanche Nation Prevention & Recovery Community Opioid Intervention Pilot Project (COIPP) hosted their 2nd Annual Ramp It Up Skate Jam on August 12. Skaters of all ages braved the summer heat at the Lawton Skate Park to compete in this family-friendly event. Viewers were able to grab a slice of pizza while they watched the competition and a demo skating performance by BladeOK. DJ Tyler D rocked the Skate Park with upbeat music while families also enjoyed other fun activities, such as the photo booth, face painting and other temporary body art. COIPP Project Director, Anthony Monoessy, stated that the event's purpose is to not only bring awareness to the opioid crisis and the prevention efforts CNP&R takes to fight drug and alcohol use and suicide, but to reach out to our Native youth within the Skate community. It's important for us to show them that they matter and do not go overlooked. CNP&R has come to look forward to hosting this community event and hopes that it continues to grow throughout future competitions.

Future events include the 3rd Annual Native Spirit Walk, which will take place on September 26 in collaboration with the local MMIW chapter. The walk event will begin at 6 p.m. at the Comanche Nation Powwow Grounds. Keep an eye for future CNP&R events on their Facebook page at "Comanche Nation P&R," "Comanche Nation IAMNDN," and "Comanche Nation Native Spirit Project" as well at their Instagram page at cn.prevention.recovery.

The Indian Tacos were superb as was the dessert. The CIVA completed the supper and then headed to the Tabernacle, Set up the flags and proceeded to the point on entry in the tabernacle.

The CIVA followed the Vice Commander, John McClung, as he was carrying the U.S. Flag. The large crowd in attendance gave the CIVA a horrendous applause with numerous Lu Lus and war cries.

The CIVA went down the central aisle to the stage then turned right to the stairs, then up the stairs and onto the stage. Kevin Sovo sang the National Anthem, and later the Pledge of Allegiance was said by all the tabernacle. Then a memorial Song, and then another song in which the flag detail then departed the stage to another round of applause, Lu Lus and more war cries.

A large number of veterans were standing below the stage in the aisle. When Detail ended and the CIVA acknowledged each other, all the veterans came through and acknowledged the CIVA. This was an event to remember.

Headstone and Marker Placement

Installation of Military Markers

July 24, -Marker Detail arrived at Post Oak Cemetery 10 a.m.

Found Gravesite for Bob Tenequer without any problems but had to look all through the cemetery for Mr. Chappabbitty.

The CIVA Commander. Kevin Pohawpatchoko, called CIVA Vice Commander, John McClure and he indicated that the grave site was located in the SW corner of the cemetery. Found the Gravesite, then continued to install the marker for Tenequer.

Cleared for a Concrete Base for a Grey Flat Granite marker. All dug for the base and the base was set. It was leveled all around and set.

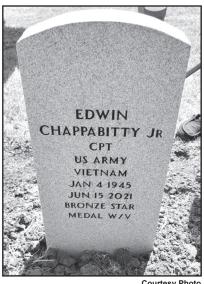

Completion of Bob Tenequer marker.

10:45 a.m. Marker Detail started on Dr. Chappabitty's Marker. This process took longer as the detail had to dig deeper and the soil was very hard to dig.

The detail accomplished the mission and the upright marker was set. It was leveled all around and then it was tamped and completed.

The detail then departed for the Cache KCA cemetery west of Cache.

11 a.m. Marker Detail started on Richard Moore. His gravesite was easily found. The soil was easier to dig and the Flat Bronze marker was placed, leveled all around and was backfilled. This completed our mission for the day.

CIVA crew-from Left: Kevin Pohawpatchoko, Raiden-Tehauno, John McClung, Gabriel Tehauno, Clifford Red Elk & Capps Tehau-

The weather was rather cool and cloudy. Even though the digging for these markers were hard, it was not hot. The Cemetery Foreman had located the grave sites which made it easier for the detail as they did not have to go looking for them.

All markers were placed even with the ground level as required. This makes it easier for them to mow. The only marker that gave the detail trouble was Ralph Pewewardy as the marker is an old Army marker and the attachment bolts did not match the holes in the concrete

Beaver had to go and get four bolts and washers. However through their ingenuity they got it to

The next work day will be August 16, at the West Cache Creek Cemetery, four miles west of Apache to the Hatchetville Road, then south one mile, then east one quarter mile, then north to cemetery. Work will start at 9 a.m.

Bobby Nauni: All arrived at 8:45 a.m. and found his resting place. The Cemetery Foreman located his gravesite. Crew started measuring and digging.

This marker was set at the foot of the burial site as a Headstone was in place.

This Cemetery is known for its hard soil, the digging was hard. The Cemetery Officials require that this type of marker be at Ground Level, it was set at ground level.

Carroll Morris: After the marker for Bobby Nauni was set, the crew moved to the resting site of Carroll Morris. This site was also hard digging

The marker was set in the middle Crew started measuring and digging. This marker was set between the head and the foot. Other markers nearby were set in this fashion as the space was very short.

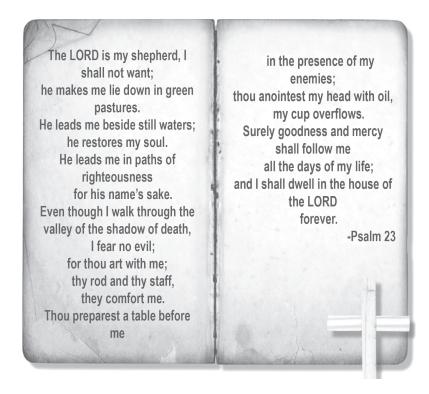

Ralph Pewewardy: After the marker for Carroll Morris was set, the crew moved to the resting site of Ralph Pewewardy. This site was also hard digging.

The marker was set in the middle. Crew started measuring and digging. This marker was set between the head and the foot. Other markers nearby were set in this fashion as the space was very short.
